MARKET NOTICE

August 10, 2009

Re: Parameter Limited Schedule Matrix (Period 2, 2009)

PJM Stakeholders:

Please be advised that the Independent Market Monitor for PJM has conducted its bi-annual review of the values included in the Parameter Matrix as required by Business Rule 23 of the PJM Operating Reserve Construct, Version 6 (Approved by the Members Committee on November 15, 2007) (Minimum Generator Operating Parameters–Parameter Limited Schedules). Rule 23 requires that the IMM post unit class specific parameters on August 20, 2009, 30 business days prior to the commencement of the next period.

Our analysis confirms that the existing unit class specific parameter values continue to be appropriate. They will remain effective for “Period 2,” which runs from October 1, 2009 through March 31, 2010. Please direct any questions to Monitoring Analytics at (610) 271-8050 or by email at MA@monitoringanalytics.com.

Best regards,
Joseph Bowring
