Re: RPM Must Offer Obligation

Section II.C.1 of Attachment M-Appendix of the PJM Open Access Transmission Tariff (OATT) provides:

The Market Monitoring Unit shall maintain, post on its website, provide to the Office of the Interconnection prior to each RPM Auction (updated, as necessary, on at least a quarterly basis), a list of Existing Generation Capacity Resources located in the PJM Region that are subject to the “must offer” obligation set forth in Section 6.6 of Attachment DD.

Accordingly, Monitoring Analytics, LLC, acting in its capacity as the Independent Market Monitor for PJM, has posted on its website (www.monitoringanalytics.com) the attached list of PJM Existing Generation Capacity Resources, as reflected in the eRPM system, which, as of the date hereof, are subject to the must offer obligation for the 2015/2016, 2016/2017, and 2017/2018 Delivery Years.

This list does not include Demand Resources, Energy Efficiency Resources, Planned Generation Capacity Resources, or External Generation Capacity Resources. This list does not account for RPM commitments, FRR commitments, or exports or such other alternative means by which the requirement set forth in Section 6.6 of Attachment DD to the OATT may be satisfied.

This posting is based on the currently effective PJM market rules. Changes to those rules pending in FERC Docket No. ER14-1461, which may be approved prior to the conclusion of the Base Residual Auction for the 2017/2018 Delivery Year that commences May 12, 2014, could affect the list applicable to future RPM Auctions.
