| Preface  | i         |  |           |
| <b>SECTION 1 Introduction</b>                          | <b>1</b>  |  |           |
| 2013 Q3 in Review                                      | 1         |  |           |
| PJM Market Summary Statistics                          | 2         |  |           |
| PJM Market Background                                  | 2         |  |           |
| Conclusions  | 3         |  |           |
| Role of MMU  | 7         |  |           |
| Reporting  | 7         |  |           |
| Monitoring   | 8         |  |           |
| Market Design  | 9         |  |           |
| Prioritized Summary of New Recommendations             | 9         |  |           |
| Total Price of Wholesale Power                         | 10        |  |           |
| Components of Total Price                              | 10        |  |           |
| Section Overviews                                      | 11        |  |           |
| Overview: Section 3, “Energy Market”                   | 11        |  |           |
| Overview: Section 4, “Operating Reserve”               | 15        |  |           |
| Overview: Section 5, “Capacity Market”                 | 19        |  |           |
| Overview: Section 6, “Demand Response”                 | 21        |  |           |
| Overview: Section 7, “Net Revenue”                     | 22        |  |           |
| Overview: Section 8, “Environmental and Renewables”    | 23        |  |           |
| Overview: Section 9, “Interchange Transactions”        | 25        |  |           |
| Overview: Section 10, “Ancillary Services”             | 30        |  |           |
| Overview: Section 11, “Congestion and Marginal Losses” | 33        |  |           |
| Overview: Section 12, “Planning”                       | 35        |  |           |
| Overview: Section 13, “FTR and ARR”                    | 37        |  |           |
| <b>SECTION 2 Recommendations</b>                       | <b>41</b> |  |           |
| Summary of New Recommendations                         | 41        |  |           |
|  |           | New Recommendations                                  | 42        |
|  |           | From Section 4, “Operating Reserves”:                | 42        |
|  |           | From Section 5, “Capacity”:                          | 42        |
|  |           | From Section 6, “Demand Response”:                   | 42        |
|  |           | From Section 9, “Interchange Transactions”:          | 42        |
|  |           | From Section 10, “Ancillary Services”:               | 43        |
|  |           | From Section 13, “FTRs and ARRs”:                    | 43        |
|  |           | <b>SECTION 3 Energy Market</b>                       | <b>45</b> |
|  |           | Overview   | 46        |
|  |           | Market Structure                                     | 46        |
|  |           | Market Performance: Markup, Load, Generation and LMP | 47        |
|  |           | Scarcity   | 48        |
|  |           | Recommendations                                      | 48        |
|  |           | Conclusion   | 49        |
|  |           | Market Structure                                     | 50        |
|  |           | Supply   | 50        |
|  |           | Demand   | 53        |
|  |           | Market Concentration                                 | 54        |
|  |           | Local Market Structure and Offer Capping             | 56        |
|  |           | Local Market Structure                               | 57        |
|  |           | Ownership of Marginal Resources                      | 59        |
|  |           | Type of Marginal Resources                           | 59        |
|  |           | Market Conduct: Markup                               | 60        |
|  |           | Real-Time Mark Up Conduct                            | 60        |
|  |           | Day-Ahead Mark Up Conduct                            | 61        |
|  |           | Market Performance                                   | 61        |
|  |           | Markup   | 61        |
|  |           | Real-Time Markup                                     | 61        |
|  |           | Day-Ahead Markup                                     | 65        |
|  |           | Frequently Mitigated Units and Associated Units      | 68        |
|  |           | Market Performance: Load and LMP                     | 70        |
|  |           | Load   | 70        |

|  |            |  |            |
|--|------------|--|------------|
| Locational Marginal Price (LMP)                        | 81         |  |            |
| Load and Spot Market                                   | 102        |  |            |
| <b>SECTION 4 Operating Reserve</b>                     | <b>105</b> | <b>SECTION 5 Capacity Market</b>                   | <b>137</b> |
| Overview   | 105        | Overview   | 137        |
| Operating Reserve Results                              | 105        | RPM Capacity Market                                | 137        |
| Characteristics of Credits                             | 105        | Generator Performance                              | 139        |
| Geography of Balancing Charges and Credits             | 105        | Conclusion   | 139        |
| Operating Reserve Issues                               | 106        | Installed Capacity                                 | 141        |
| Recommendations  | 106        | RPM Capacity Market                                | 142        |
| Conclusion   | 107        | Market Structure                                   | 142        |
| Credits and Charges Categories                         | 108        | Market Conduct                                     | 147        |
| Operating Reserve Results                              | 110        | Generator Performance                              | 152        |
| Operating Reserve Charges                              | 110        | Capacity Factor                                    | 152        |
| Operating Reserve Rates                                | 113        | Generator Performance Factors                      | 153        |
| Operating Reserve Determinants                         | 118        | Generator Forced Outage Rates                      | 154        |
| Operating Reserve Credits                              | 120        |  |            |
| Characteristics of Credits                             | 120        | <b>SECTION 6 Demand Response (DR)</b>              | <b>163</b> |
| Types of Units   | 120        | Overview   | 163        |
| Economic and Noneconomic Generation                    | 121        | Conclusion   | 163        |
| Geography of Charges and Credits                       | 122        | PJM Demand Response Programs                       | 164        |
| Operating Reserve Issues                               | 126        | Participation in Demand Response Programs          | 165        |
| Concentration of Operating Reserve Credits             | 126        | Economic Program                                   | 165        |
| Day-Ahead Unit Commitment for Reliability              | 127        | Load Management Program                            | 170        |
| Lost Opportunity Cost Credits                          | 128        |  |            |
| Black Start Service Units                              | 133        | <b>SECTION 7 Net Revenue</b>                       | <b>183</b> |
| Con Edison – PSEG Wheeling Contracts Support           | 133        | Overview   | 183        |
| Reactive / Voltage Support Units                       | 133        | Net Revenue  | 183        |
| Reactive Service Credits and Operating Reserve Credits | 133        | Conclusion   | 183        |
| Internal Bilateral Transactions                        | 134        | Net Revenue  | 183        |
| Up-to Congestion Transactions                          | 135        | Theoretical Energy Market Net Revenue              | 184        |
| Quantifiable Recommendations Impact                    | 135        | New Entrant Combustion Turbine                     | 186        |
| Confidentiality of Operating Reserves Information      | 136        | New Entrant Combined Cycle                         | 187        |
|  |            | New Entrant Coal Plant                             | 187        |
|  |            | New Entrant Integrated Gasification Combined Cycle | 188        |

|  |            |  |     |
|--|------------|--|-----|
| New Entrant Diesel   | 188        | Conclusion   | 209 |
| New Entrant Nuclear Plant  | 188        | Interchange Transaction Activity   | 211 |
| New Entrant Wind Installation  | 189        | Aggregate Imports and Exports  | 211 |
| New Entrant Solar Installation   | 189        | Real-Time Interface Imports and Exports                                      | 213 |

|  |            | PJM Transmission Loading Relief Procedures (TLRs)                            | 243 |
|  |            | Up-To Congestion   | 244 |
|  |            | Sham Scheduling  | 247 |
|  |            | Elimination of Ontario Interface Pricing Point                               | 247 |
|  |            | PJM and NYISO Coordinated Interchange Transaction Proposal                   | 248 |
|  |            | Elimination of Sources and Sinks   | 248 |
|  |            | Willing to Pay Congestion and Not Willing to Pay Congestion                  | 248 |
|  |            | Spot Imports   | 249 |
|  |            | Real-Time Dispatchable Transactions  | 250 |
| <b>SECTION 8 Environmental and Renewable Energy Regulations</b>                            | <b>191</b> |  |     |
| Overview   | 191        |  |     |
| Federal Environmental Regulation   | 191        |  |     |
| State Environmental Regulation   | 192        |  |     |
| Emissions Controls in PJM Markets  | 192        |  |     |
| State Renewable Portfolio Standards  | 192        |  |     |
| Conclusion   | 193        |  |     |
| Federal Environmental Regulation   | 193        |  |     |
| Control of Mercury and Other Hazardous Air Pollutants                                      | 193        |  |     |
| Air Quality Standards: Control of NO <sub>x</sub> and SO <sub>2</sub> Emissions Allowances | 193        |  |     |
| Emission Standards for Reciprocating Internal Combustion Engines                           | 194        |  |     |
| Regulation of Greenhouse Gas Emissions   | 194        |  |     |
| Federal Regulation of Environmental Impacts on Water                                       | 195        |  |     |
| State Environmental Regulation   | 195        |  |     |
| New Jersey High Electric Demand Day (HEDD) Rules   | 195        |  |     |
| State Regulation of Greenhouse Gas Emissions   | 195        |  |     |
| Renewable Portfolio Standards  | 197        |  |     |
| Emissions Controlled Capacity and Renewables in PJM Markets                                | 203        |  |     |
| Emission Controlled Capacity in the PJM Region   | 203        |  |     |
| Wind Units   | 204        |  |     |
| Solar Units  | 206        |  |     |
| <b>SECTION 9 Interchange Transactions</b>  | <b>207</b> |  |     |
| Overview   | 207        |  |     |
| Interchange Transaction Activity   | 207        |  |     |
| Interactions with Bordering Areas  | 207        |  |     |

|  |            |  |            |
|--|------------|--|------------|
| <b>SECTION 10 Ancillary Service Markets</b>                | <b>251</b> | Conclusion   | 287        |
| Overview   | 252        | Locational Marginal Price (LMP)                              | 288        |
| Regulation Market  | 252        | Components   | 288        |

## Figures

### SECTION 1 Introduction 1

Figure 1-1 PJM's footprint and its 20 control zones 3

### SECTION 3 Energy Market 45

Figure 3-1 Average PJM aggregate supply curves: Summer of 2012 and 2013 50

Figure 3-2 PJM footprint calendar year peak loads: January through September of 1999 to 2013 54

Figure 3-3 PJM peak-load comparison: Thursday, July 18, 2013, and Tuesday, July 17, 2012 54

Figure 3-4 PJM hourly Energy Market HHI: January through September, 2013 56

Figure 3-5 Frequently mitigated units and associated units (By month): February, 2006 through September, 2013 69

Figure 3-6 Frequently mitigated units and associated units total months eligible: February, 2006 through September, 2013 70

Figure 3-7 Distribution of PJM real-time accounting load: January through September of 2012 and 2013 71

Figure 3-8 PJM real-time monthly average hourly load: January 2012 through September 2013 72

Figure 3-9 PJM Heating and Cooling Degree Days: January of 2012 through September of 2013 72

Figure 3-10 Distribution of PJM day-ahead load: January through September of 2012 and 2013 73

Figure 3-11 PJM day-ahead monthly average hourly load: January 2012 through September 2013 74

Figure 3-12 Day-ahead and real-time loads (Average hourly volumes): January through September of 2013 76

Figure 3-13 Difference between day-ahead and real-time loads (Average daily volumes): January 2012 through September of 2013 76

Figure 3-14 Day-ahead and real-time generation (Average hourly volumes): January through September of 2013 80

Figure 3-15 Difference between day-ahead and real-time generation (Average daily volumes): January 2012 through September of 2013 80

Figure 3-16 Map of PJM real-time generation less real-time load by zone: January through September of 2013 81

Figure 3-17 Average LMP for the PJM Real-Time Energy Market: January through September of 2012 and 2013 82

Figure 3-18 PJM real-time, monthly, load-weighted, average LMP: January 2008 through September of 2013 84

Figure 3-19 Spot average fuel price comparison with fuel delivery charges: 2012 and January through September 2013 (\$/MMBtu) 84

Figure 3-20 Marginal cost of generation of CP, CT, CC, and PJM average heat rate sub-critical coal plant: 2009 through September 2013 (\$/MWh) 85

Figure 3-21 Average LMP for the PJM Day-Ahead Energy Market: January through September of 2012 and 2013 87

Figure 3-22 Day-ahead, monthly, load-weighted, average LMP: January 2008 through September of 2013 89

Figure 3-23 PJM day-ahead aggregate supply curves: 2013 example day 91

Figure 3-24 Hourly volume of bid and cleared INC, DEC and Up-to Congestion bids (MW) by month: January, 2005 through September, 2013 92

Figure 3-25 PJM cleared up-to congestion transactions by type (MW): January 2005 through September of 2013 98

Figure 3-26 Real-time load-weighted hourly LMP minus day-ahead load-weighted hourly LMP: January through September of 2013 101

Figure 3-27 Monthly average of real-time minus day-ahead LMP: January through September of 2013 101

Figure 3-28 PJM system hourly average LMP: January through September of 2013 102
