

# Table of Contents

## Preface

## SECTION 1 Introduction

Q1 2025 in Review

PJM Market Summary Statistics

PJM Market Background

Conclusions

Energy Market Conclusion

Capacity Market Conclusion

Synchronized Reserve Market Conclusion

Nonsynchronized Reserve Market Conclusion

Secondary Reserve Market Conclusion

Regulation Market Conclusion

FTR Auction Market Conclusion

Role of MMU

Reporting

Monitoring

Market Design

New Recommendations

New Recommendations from Section 10, Ancillary Services

Total Cost of Wholesale Power

Section Overviews

Overview: Section 3, Energy Market

Overview: Section 4, Energy Uplift

Overview: Section 5, Capacity Market

Overview: Section 6, Demand Response

Overview: Section 7, Net Revenue

Overview: Section 8, Environmental and Renewables

Overview: Section 9, Interchange Transactions

Overview: Section 10, Ancillary Services

Overview: Section 11, Congestion and Marginal Losses

Overview: Section 12, Generation and Transmission Planning

Overview: Section 13, FTRs and ARRs

## SECTION 2 Recommendations

Recommendation Priority

Recommendation Status

New Recommendations

New Recommendations from Section 10, Ancillary Services

Complete List of Current MMU Recommendations

Section 3, Energy Market

Section 4, Energy Uplift

Section 5, Capacity Market

Section 6, Demand Response

Section 7, Net Revenue

Section 8, Environmental and Renewables

Section 9, Interchange Transactions

Section 10, Ancillary Services

Section 11, Congestion and Marginal Losses

Section 12, Planning

Section 13, FTRs and ARRs

## SECTION 3 Energy Market

Overview

Supply and Demand

Competitive Assessment

Recommendations

Conclusion

Supply and Demand

Market Structure

Market Behavior

Generator Offers

ICAP Must Offer Requirement

Emergency Maximum MW

Parameter Limited Schedules

Virtual Offers and Bids

Market Performance

|                                                                  |            |                                            |            |
|------------------------------------------------------------------|------------|--------------------------------------------|------------|
| LMP                                                              | 172        | Regulation Market Offsets                  | 288        |
| Zonal LMP and Dispatch                                           | 196        | Concentration of Energy Uplift Credits     | 289        |
| Fuel Prices, LMP, and Dispatch                                   | 204        | Uplift Credits and Market Power Mitigation | 291        |
| Components of LMP                                                | 212        | Polar Vortex 2025 (January 19 – 23, 2025)  | 292        |
| Shortage                                                         | 216        |                                            |            |
| Emergency Procedures                                             | 216        |                                            |            |
| Power Balance Constraint Violation                               | 220        |                                            |            |
| Shortage and Shortage Pricing                                    | 221        |                                            |            |
| Competitive Assessment                                           | 231        |                                            |            |
| Market Structure                                                 | 231        |                                            |            |
| Market Behavior                                                  | 238        |                                            |            |
| Market Performance                                               | 264        |                                            |            |
| Market Structure, Participant Behavior, and Market Performance   | 271        |                                            |            |
| <b>SECTION 4 Energy Uplift (Operating Reserves)</b>              | <b>273</b> | <b>SECTION 5 Capacity Market</b>           | <b>295</b> |
| Overview                                                         | 274        | Overview                                   | 297        |
| Energy Uplift Credits                                            | 274        | RPM Capacity Market                        | 297        |
| Energy Uplift Charges                                            | 274        | Part V Reliability Service (RMR)           | 298        |
| Recommendations                                                  | 275        | Generator Performance                      | 298        |
| Conclusion                                                       | 276        | Recommendations                            | 298        |
| Energy Uplift Credits                                            | 278        | Conclusion                                 | 303        |
| Categories of Credits and Charges                                | 279        | Market Design                              | 307        |
| Types of Units                                                   | 281        | Installed Capacity                         | 309        |
| Day-Ahead Unit Commitment for Reliability                        | 283        | Fuel Diversity                             | 311        |
| Balancing Uplift (Operating Reserve) Credits/Balancing Generator |            | RPM Capacity Market                        | 312        |
| Credits                                                          | 283        | Market Structure                           | 312        |
| Lost Opportunity Cost Credits                                    | 284        | Market Conduct                             | 329        |
| Energy Uplift Charges                                            | 285        | Market Performance                         | 335        |
| Energy Uplift Charges                                            | 285        | FRR                                        | 340        |
| Uplift Eligibility                                               | 287        | CRF Issue                                  | 341        |
| Energy Uplift Issues                                             | 288        | Timing of Unit Retirements                 | 344        |
| Uplift Resettlement                                              | 288        | Part V Reliability Service (RMR)           | 345        |
| Uplift Forfeiture Rule                                           | 288        | Generator Performance                      | 350        |
|                                                                  |            | Capacity Factor                            | 350        |
|                                                                  |            | Generator Performance Factors              | 351        |
