Monitoring Analytics

Unit Ownership Information

- In addition to the Member Parent/Affiliate information required by PJM, the MMU requires unit ownership information
- Joint effort with PJM to minimize work on membership
- Unit ownership data are needed for market power and market structure analysis

Explanation

- **The MMU maintains data on unit ownership for supporting market power tests and market structure analysis.**
- **The data are currently collected from multiple sources.**
- **The timeliness and accuracy of the ownership data need to be improved.**
- **The requested data will supplement and strengthen the existing data collection processes, and result in a record of unit ownership based on information provided directly by PJM members.**

Information Collection

- **Unit ownership**
- **Unit offer determination**
- **Unit offer submittal**
- **Unit operation**
- **Collection of unit ownership information: For each unit owned (partially or 100%), complete the following form:**

Unit ID:		Unit Name:	
Percent of unit owned by Member:			
Other owners Org ID (include percent):			
At whose direction is the unit offered?			
Who offers the unit?			
Who operates the unit?			
Describe any tolling agreement, PPA, or Operating Agreement:
