

Balancing Operating Reserve Charges

Table 0-1 shows total balancing operating reserve charges from January 2010 through June 2014.¹ See the *2014 Quarterly State of the Market Report for PJM: January through June*, Section 4, Table 4-1 for a description of the balancing operating reserve charges allocation.

The charges shown in Table 0-1 correspond to the billing data used in the *State of the Market Reports for PJM*, for example, the 2010 charges correspond to the data used in the *2011 State of the Market Report for PJM*. These data can be modified by PJM Settlements at any time to reflect changes in the evaluation of energy uplift.

¹ The MMU did not report balancing operating reserve charges for load response in the *2011 State of the Market Report for PJM*.
